WORK EXPERIENCE

Grass Solutions Pvt Lmt.

MERN Stack Developer

- Developed a full-stack E-commerce web application using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built a responsive and user-friendly interface with React.js and Tailwind CSS for seamless shopping across devices.
- Implemented secure user authentication and authorization using JWT and role-based access control.
- Developed product listing, product details, search, filtering, sorting, and pagination functionalities.
- Integrated shopping cart and wishlist features with dynamic state management using Redux Toolkit/Context API.
- Implemented secure checkout flow with order management and order history features.
- Created RESTful APIs using Express.js for products, users, orders, and authentication.
- Designed and managed MongoDB collections for users, products, orders, and categories.
- Implemented image upload functionality using Cloudinary/Multer.
- Added admin dashboard features to manage products, categories, users, and customer orders.
- Optimized application performance through lazy loading, code splitting, and API optimization.
- Deployed the frontend on Vercel and the backend on Render/Node server with MongoDB Atlas.

Infyntrek Systemms.

Software Engineer – JavaScript / Node.js / AWS

- Developed a full-stack Expense Tracker application using the MERN stack to manage personal income and expenses.
- Implemented secure user authentication and authorization using JWT.
- Built CRUD functionality to add, edit, delete, and view income and expense transactions.
- Categorized transactions (Food, Travel, Shopping, Bills, Salary, etc.) for better financial tracking.
- Created an interactive dashboard displaying total income, expenses, and current balance.
- Integrated Chart.js to visualize spending patterns with pie charts and bar graphs.
- Developed RESTful APIs using Express.js and Node.js for transaction and user management.
- Used MongoDB Atlas for secure and efficient storage of financial records.
- Added search, filter, and date-range functionality for quick transaction lookup.
- Designed a responsive UI using React.js and Tailwind CSS/Bootstrap for a seamless user experience across devices.
- Optimized application performance through efficient state management and API handling.
- Deployed the frontend on Vercel and the backend on Render with MongoDB Atlas.

Infotact Solutions Pvt Lmt.

Software Engineer – Backend (Node.js / AWS)

May 2024 – Jul 2024

- Developed a full-stack Hyperlocal Service Marketplace using the MERN stack, connecting customers with nearby service providers.
- Built secure user authentication and authorization using JWT for customers and service providers.
- Designed responsive and user-friendly interfaces with React.js and Tailwind CSS.
- Implemented service search, category-wise filtering, and location-based service discovery.
- Developed provider profile management, service listings, and booking request functionality.
- Created RESTful APIs using Node.js and Express.js for user, service, booking, and profile management.
- Integrated MongoDB Atlas for efficient storage of user, service, and booking data.
- Implemented booking status tracking (Pending, Accepted, Completed, Cancelled) for better service management.
- Added customer reviews and ratings to improve trust and service quality.
- Optimized application performance using lazy loading, code splitting, and efficient API calls.
- Deployed the frontend on Vercel and the backend on Render with MongoDB Atlas.

IBM: International Business Machines.

Software Engineer – JavaScript / Node.js / AWS

Apr 2025 – July 2025

- Developed a full-stack job portal for job seekers and recruiters.
- Implemented user authentication and role-based access (Admin, Recruiter, Candidate).
- Built job posting, application tracking, and profile management features.
- Created RESTful APIs for users, jobs, and applications.
- Optimized MongoDB queries for faster data retrieval.

EDUCATION

Geetanjali Institute Of Technical Studies Udaipur

Bachelor of Engineering (Computer Science Engineer)

2022 – 2026

SKILLS

Languages: TypeScript, JavaScript (ES6+), Java, SQL, HTML5, CSS3

Frontend Frameworks / Libraries: React.js, Redux, Redux Toolkit (RTK), RTK Query, React Hooks, React Router, Material UI, Bootstrap

Backend Frameworks: Node.js, Express.js

Cloud (AWS): AWS Lambda, API Gateway, S3, SNS, SQS, DynamoDB, Secrets Manager, AppConfig, CloudWatch, IAM, Serverless Framework

Databases: DynamoDB, MongoDB, MySQL, PostgreSQL

Testing / QA: Jest, React Testing Library, JUnit, Mockito, SonarQube, Postman, SoapUI

DevOps / CI-CD: GitLab CI/CD, Jenkins, GitHub Actions, Serverless Deploy, Trunk-Based Development

AI-Assisted Development: GitHub Copilot, Cursor IDE – productivity, refactoring, test scaffolding, AI-assisted code review

Architecture / Methodologies: RESTful APIs, Microservices, Serverless Architecture, Event-Driven Design, Agile / Scrum, TDD, Code Review, Pair Programming

Compliance & Security: HIPAA-aligned PHI handling, secrets management, OWASP Top 10 awareness

Version Control & Tools: Git, GitHub, GitLab, Bitbucket, VS Code, IntelliJ IDEA, Eclipse, Postman
